

# ENVIRO LINER® GEOMEMBRANES

## FROM DRILLING FLUIDS TO HAZARDOUS WASTE CONTAINMENT, WE HAVE YOU COVERED

With its exceptional flexibility and endurance properties, Layfield's Enviro Liner® (EL) brand of geomembranes has been a trusted performer in our portfolio for many years. Available in four unique formulations, this series of geomembranes offers solutions for a wide range of containment applications.

The flagship Enviro Liner® 6000 incorporates the latest ultraviolet/anti-oxidant (UV/AO) stabilization technology, providing a new level of UV resistance and endurance properties. It is designed for long-term exposed applications and has excellent chemical resistance, making it one of the most durable geomembranes on the market.

### ENHANCED UV & CHEMICAL RESISTANCE

Offers the latest ultraviolet/anti-oxidant stabilization technology and excellent chemical resistance.

### COLD TEMPERATURE HANDLING

Ability to withstand temperatures well below freezing.

### EXCELLENT INTERFACE FRICTION PROPERTIES

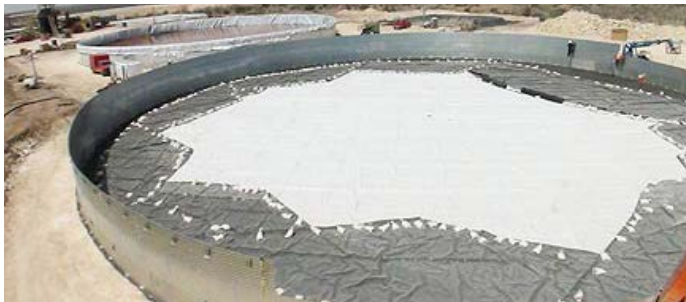

Available in textured versions on one or both sides, providing superior friction properties.

### REDUCED INSTALLATION COSTS

Can be factory fabricated to deliver to the site as large panels, making for an easier installation.

# Enviro Liner® Geomembrane Series

## ▶ ENVIRO LINER® 1000

A flexible membrane liner developed for the containment of drilling fluids and water used in hydraulic fracturing operations.

## ▶ ENVIRO LINER® 3000

An economical lining material made from blended/reprocessed polyethylene resins selected for optimum performance at the lowest cost.

## ▶ ENVIRO LINER® 4000

A specialized LLDPE polyethylene lining material that combines flexibility, UV stability, and chemical resistance, allowing for easy accommodation to differential settlement. GRI GM 17 compliant.

## ▶ ENVIRO LINER® 6000

Enviro Liner® 6000 is fortified with the latest in Ultra Violet/Anti Oxidant (UV/AO) stabilization packages, providing exceptional UV resistance and making it ideal for long-term exposed applications.

Layfield's Enviro Liner® geomembrane series can be prefabricated, providing a seamless solution that eliminates the need for on-site seaming and significantly reduces installation time and costs! Our prefabricated Enviro Liner® geomembranes are tailor-made to your specified dimensions, adhering to the industry's highest quality control standards. Meticulously folded and packaged, they ensure a hassle-free installation process.
